

13th April 2022

2022 Pay Ballot

Dear Colleagues,

We will be balloting members tomorrow morning, please make a huge effort to be there.

The current offer from Veolia is a paltry 2% and some extra leave entitlement.

This morning inflation (RPI) hit 9%, this does not take into account the 20% petrol/diesel rise in March nor does it take into account the electricity and gas hikes due imminently. It also does not take into account the 1.5% National Insurance rise or the recent prices of food and travel.

This means the real cost of inflation will be in double figures for April as the minimum RPI will be 10.5%. A 2% pay increase for you means a pay cut of 8% and increasing.

Please ensure you all attend from 0530 tomorrow morning to give us the mandate to reject in huge numbers.

Yours fraternally,

Paul Grafton
